# Heart of the Community Spotlight

Krishiv Patel created and presented a program on the history and dangers of AI for the Shelton Public Libraries and Senior Citizen Center. His work also included educating others on downloading apps and answering general technology questions. Krishiv also participated in the Shelton Library System Strategic Planning Committee, where he was an asset to the committee and provided valuable information on how to prepare and distribute the survey and how to interpret data.

Krishiv is the son of Sanjay and Dipika Patel. He is a 2025 graduate from Shelton High School and was named valedictorian of his class. Krishiv currently attends Yale University in New Haven.
